Cathy,

Opps-Delta was just proposed and SBA and Colonial in FY2015.

Subject: Request for RPM's

Cathy,

We are working with enforcement earlier in the process to help identify the potential for PRP's at NPL caliber sites-the next 3 sites we anticipate listing will be in Louisiana-we will need RPM's for the following three sites (Hebert is helping on Colonial-and if okay will continue to work with him)

Delta Shipyard (ready to start sending notice letters-104E's have been sent and a RP identified)
Colonial Creosote (Mike Hebert has been helping me with projected costs and Pam Travis on process for accessing the Tronox funds)
SBA Shipyard (enforcement is getting reading to send 104e's)

I am helping facilitate the information for the enforcement officers in the interim until we have RPM's. I anticipate these three sites will be proposed in FY2015.

☺ Brenda
